

July, 2023

Hello Save-It Supporters,

I will be on the Salmon River with no internet access from July 14-27. If the Corps of Engineers (USACE) announces the next public scoping meeting while I'm gone, Don Baumgardt (Co-director of SaveBCLP) will notify the group. We will be given at least 30 days advance notice of the hearing.

You could also check the following websites for project information and may want to bookmark these sites:

The Colorado Water Conservation Board's Bear Creek Lake Reallocation Project webpage will post information about the next hearing when it is available.
<https://cwcb.colorado.gov/bearcreeklake>

The City of Lakewood also maintains a webpage with LOTS of helpful information about the reservoir expansion proposal.

<https://www.lakewood.org/Government/Departments/Community-Resources/Projects/Bear-Creek-Reservoir-expansion-proposal>

Finally, Lakewood is beginning a master planning process for Bear Creek Lake Park. I will be representing SaveBCLP on the Plan Advisory Committee. The first public meeting on the process will be on September 27. More info here: <https://www.lakewoodtogether.org/bearcreekplan>

Best,

Katie Gill
Director, Save Bear Creek Lake Park
