

Hello BCLP friends,

I hope you're enjoying this first week of spring.

A second community open house for the Bear Creek Lake Park Master Plan will be held next Wednesday, March 27 from 5:30-7:00 pm at the Visitor's Center in BCLP. Join staff and the consultant team to celebrate the community's participation, review plan design concepts, and give input to shape the future of the popular regional park.

This is a continuation of the process that began last year. More info: <https://www.lakewoodtogether.org/bearcreekplan>.

Note: THE BCLP Master Plan is NOT part of the Reallocation (reservoir expansion) Feasibility Study. Rather, staff and community are planning future improvements for BCLP, unrelated to what may or may not happen with respect to the water storage proposal.

Best,

--
